 No interests

**Financial interests:**

This is where an individual may get direct financial benefits from the consequences of a commissioning decision. This could, for example, include being:

- A director, including a non-executive director, or senior employee in a private company or public limited company or other organisation which is doing, or which is likely, or possibly seeking to do, business with health or social care organisations
  - A shareholder (or similar ownership interests), a partner or owner of a private or not-for-profit company, business, partnership or consultancy which is doing, or which is likely, or possibly seeking to do, business with health or social care organisations
  - A management consultant for a provider.
- This could also include an individual being:
- In secondary employment (see paragraph 56-57);
  - In receipt of secondary income from a provider;
  - In receipt of a grant from a provider;
  - In receipt of any payments (for example honoraria, one-off payments, day allowances or travel or subsistence) from a provider.
  - In receipt of research funding, including grants that may be received by the individual or any organisation in which they have an interest or role; and
  - Having a pension that is funded by a provider (where the value of this might be affected by the success or failure of the provider)

**Non-financial professional interests:**

This is where an individual may obtain a non-financial professional benefit from the consequences of a commissioning decision, such as increasing their professional reputation or status or promoting their professional career. This may, for example include situations where the individual is:

- An advocate for a particular group of patients;
  - A GP with special interests e.g., in dermatology, acupuncture etc.
  - A member of a particular specialist professional body (although routine GP membership of the RCGP, British Medical Association (BMA) or a medical defence organisation would not usually by itself amount to an interest which needed to be declared)
  - An advisor for the Care Quality Commission (CQC) or the National Institute for Health and Care Excellence (NICE)
  - A medical researcher.
- GPs and practice managers, who are members of the governing body or committees of the CCG, should declare details of their roles and responsibilities held within their GP practices

**Non-financial personal interests:**

This is where an individual may benefit personally in ways which are not directly linked to their professional career and do not give rise to a direct financial benefit. This could include, for example, where the individual is

- A voluntary sector champion for a provider;
- A volunteer for a provider;
- A member of a voluntary sector board or has any other position of authority in or connection with a voluntary sector organisation
- Suffering from a particular condition requiring individually funded treatment;
- A member of a lobby or pressure group with an interest in health.

**Indirect interests:**

This is where an individual has a close association with an individual who has a financial interest, a non-financial professional interest or a non-financial personal interest in a commissioning decision (as those categories are described above) for example, a

- Spouse / partner
- Close relative e.g., parent, grandparent, child, grandchild or sibling;
- Close friend;
- Business partner.

A declaration of interest for a "business partner" in a GP partnership should include all relevant collective interests of the partnership, and all interests of their fellow GP partners (which could be done by cross referring to the separate declarations made by those GP partners, rather than by repeating the same information verbatim).
